

Library Shelving Options

polycopy
smile, it's sorted

Innovative Features & Customisation

Polycopy library shelving is durable and highly adaptable, with options including rolling stack systems for high-density storage and custom finishes such as MFC cladding and display end panels.

Benefits of Polycopy Library Shelving

Designed to maximise space without sacrificing accessibility, our shelving is built for heavy use and offers flexible configurations to suit different layouts and collection sizes.

View our most popular library shelving or get in touch to discuss a tailored solution.

Display end panels on a mobile, double sided shelving system

Tilting top shelf option.

Full range of steel shelf and wooden end panel colours available, helping to reinforce your brand or colour theme.

Static shelving - MFC panels with steel shelf.

Full range of steel shelf and wooden end panel colours available, helping to reinforce your brand or colour theme.

Ref 00/148

A cost-effective, contemporary shelving solution designed to maximise storage while maintaining easy access.

Built for durability in high-traffic environments, it's ideal for schools and public spaces, offering long-lasting performance and reliable safety.

Full range of steel shelf and wooden end panel colours available, helping to reinforce your brand or colour theme.

Ref 00/187

For schools looking to create a more traditional library feel, wooden shelving remains a popular option. The natural finish brings warmth and character to the space, helping to create a calm, inviting environment that encourages reading and learning. While many modern libraries favour fully steel systems, this classic wooden carcass design offers a timeless aesthetic without compromising on practicality.

This option is typically combined with durable steel shelving, giving you the best of both worlds - the visual appeal of wood with the strength and flexibility of steel internals. Optional end display panels can also be added to enhance presentation and make the most of featured books or key titles, although these can be included or omitted depending on your layout and preference.

Ref 00/199

Bespoke:

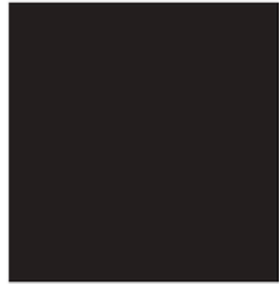

A woodland themed reading booth with vinyl hand prints.

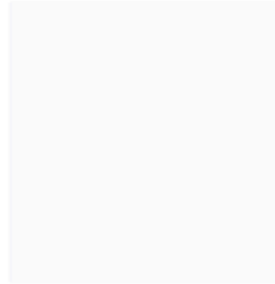

End panels are available in a range of options, including MFC, acrylic and steel - with colour options to match your branding or room theme.
