

Paper Sizing Guide

Choosing copier paper rarely gets much attention, but it has a bigger impact than many people realise.

The right paper helps your printers and copiers run smoothly, improves the look and feel of your documents, and can reduce waste, downtime

A0

841 × 1189 mm

Speak to Polycopy

Choosing copier paper properly helps keep your print environment running smoothly, reduces waste and improves the quality of your printed materials.

The right choice depends on:

- how the paper is used
- the equipment it runs through
- thickness as well as weight
- whiteness and readability
- sustainability and consistency

Taking a bit of time to get this right usually pays off quickly in day-to-day use.

If you would like help selecting the right paper for your machines, usage and budget, speak to the Polycopy team.
